

Digital Single Market

Event Barcelona, Spain 27 November 2013 to 28 November 2013

European Nanoelectronics Forum

Situated in a different city each year, the [European Nanoelectronics Forum](#) ^[1] is a yearly event which attracts key players from industry, academia and public authorities.

The forum covers topics like research and technology development in nanoelectronics, innovation in Europe, the semiconductor market and looking ahead for the European nanoelectronics industry.

Up to 20 FP7 projects will be presenting posters and/or small demos to show case achievements to an audience of some 200 to 300 attendees.

Organiser

European Commission, CATRENE, ENIAC
