InGeoCloudS Workshop

Efficient publication and share of your Geodata and Maps.

Discover the innovations brought about by InGeoCloudS platform. The workshop will offer you insights into the wide range of opportunities made possible by the implementation of InGeoCloudS Pilot2, regarding for example INSPIRE data models or Linked Open Data. You will then have the choice either to participate in discussions about the exploitation of the platform or to attend a parallel training session on technical aspects of the platform.
