

Digital Single Market

Call for proposals 20 November 2013 to 23 April 2014

Horizon 2020 Call 1 for Robotics

[It's open!](#) [1]

Update! NEW Q&A (23/2/2014)

The first call for proposals for new research and innovation projects under the theme ICT-Robotics is now open. The objectives are aimed at developing a new generation of adaptable industrial and service robots able to interact safely with humans in dynamic real-world environments primarily within the market domains of manufacturing, commercial, civil and agriculture. For other funding opportunities involving robotics within Call 1 please see the [Work Programme 2014-15](#) [2]. The deadline to submit proposals via the [Participants Portal](#) [3] is the 23rd of April 2014.

The call will be published on the Participants Portal funding page and here is also where you find instructions on how to submit your proposal. Look out for funding opportunities under "*Leadership in enabling and industrial technologies*" and "*Information and Communication Technologies*". The details of calls for proposals for robotics can be found under the headings ICT 23 - 2014 Robotics and ICT 24 - 2015 Robotics. A draft of the text has been published on the above link to H2020.

An Information Day will take place on the 13th-14th of January 2014 in Luxembourg. Details and related documents for the Information Day will soon be published under events on ([link](#) [4]).
