Journal on mHealth available

The latest issue of the *ePractice Journal* features scientific papers on mobile health (mHealth) solutions. How to apply them for the benefit of both healthcare systems and patients? And what about regulatory issues like privacy?

The journal *From eHealth to mHealth: Society becomes the driver of its health activities* is divided into two parts.

Part 1: Applying mHealth Solutions

- *Applying mHealth Solutions*, editorial
- *Making Healthcare More Accessible, Better, Faster, and Cheaper: The MobiGuide Project*. Authors: Mor Peleg, Yuval Shaha, Silvana Quaglini
- *Development of Patient Access to Electronic Health Records as a Step towards Ubiquitous Public eHealth*. Authors: Isabella Scandurra, Jesper Holgersson, Thomas Lind, Gunilla Myreteg
- *Increasing the Engagement of Citizens in PHR Adoption by Using mHealth*. Authors: Claudio Dario, Claudio Saccavini, Lorenzo Gubian, Giorgia Centis, Federica Sandri
- *The Clinical, Epidemiological and Financial Benefits of Telecardiology*. Authors: Angelos Tsipis, Emmanouil Petrou
- *Empowering Patients and Promoting Collaborative Practice through mHealth Applications in Psychiatric Care*. Authors: Lillian Seow, Adelln Sng, Andrew Page
- *mHealth Redesigning Healthcare Budgets*. Authors: Paul De Raeve, Dorota Kilanska
- *Implementation of RFID Systems for Positive Patient Identification: The ISMETT Experience*. Authors: Tommaso Piazza, Sergio D'Angelo
