ACE Acceleration Programme opens for applications

Are you an SME looking to expand into new international markets?

The Accelerate Cross Border Engagement project, ACE, has just launched a call for applications for SMEs looking to go international. The project is designed to help ICT businesses grow rapidly in new international markets. ACE provides a variety of services including office space, introductions to investors and coaching on pitching for transnational investments. The top 100 applicants will be assigned an experienced mentor to help grow their company internationally. Meanwhile those applicants outside the top 100 will still be able to use the ACE Open Innovation Platform to help them with their ambitions to develop internationally. The call for candidates will remain open until the 28 February 2014.

Useful information

More details on the call can be found in [ACE's press release](#) [1]

[ACE](#) [2] is one of the projects on [EUHUB](#) [3], a common platform for ICT entrepreneurs to access support services funded by the EU.
