EU Cybersecurity Strategy - High Level Conference

The Conference took of the progress of the EU Cybersecurity strategy, in the first year after its adoption. It also provided information on the state of play of the implementation of the five main priorities of the Strategy and showcased highlights of the main actions in the Strategy.

This one-day Conference was organised by the European Commission, in cooperation with the European External Action Service and explored the way forward regarding the Commission proposal for a Directive laying down measures to ensure a high level of network and information security across the Union and the next steps to foster trust in the public and private sector for the benefit of citizens and the Digital Single Market.

For more information please consult the attached documentation. Please find also below to a number of presentations delivered during the conference.
