

Digital Single Market

Brochure3 February 2014

Why should you care about a Connected Continent?

Why you should care about a #ConnectedContinent

<p>A communicating single market</p> <p>The chance of one telco supplier <i>for your whole business</i> <i>one contract, one bill for all sites</i></p> <p>Guaranteed end-to-end services <i>even across borders</i></p> <p>Large pan-EU operators <i>competing alongside</i> <i>smaller tailored providers</i></p>	<p>Better broadband</p> <p>Networks that are reliable, fast, pervasive <i>with fresh investment in fast broadband</i></p> <p>More options wherever you go <i>fixed, mobile, WiFi</i></p> <p>Access to the full, open internet <i>guaranteed for the first time ever</i></p>
<p>A fairer deal</p> <p>Roaming-free deals <i>across the EU</i></p> <p>No more cross-border price hikes <i>for calls or texts</i></p> <p>Transparent telecoms contracts <i>easier to compare and switch</i></p>	<p>Connections fit for the future</p> <p>ICT networks to support new digital tools tools that can boost your bottom line</p> <ul style="list-style-type: none">...Social networking...Communicating with clients...Big data management...Teleconferencing and cloud computing...Increased productivity and efficiency...With new ways to reach new markets

- A communicating single market
- Better broadband
- A fairer deal
- Connections fit for the future
