1st Workshop on broadcast-broadband convergence and its impact on spectrum and network use

The main aim of the workshop is to give stakeholders an opportunity to share views and to provide input to the study team – both during the event and in writing following the event. The team will then hold subsequent workshops – to present preliminary analysis on 8 July 2014 and to present its final findings on 4 November 2014. The workshop is open to all interested parties.
