Presentation of the winning Spanish apps biggest competition organized by the EC and Campus Party

Tuesday 4 March the Representation of the European Commission in Spain organises a breakfast conference to present to the press the Spanish winners of the FI-WARE challenges on Smart Cities and Smart Business, and to also present the new challenges Smart Society and FI-WARE Excellence.

FI-WARE is a public-private partnership between the European Commission and major European ICT companies with the aim of defining an open platform for the development and global deployment of applications in the future Internet. The European Commission will allocate EUR 100 millions over the period 2014-2015 for SMEs and start-ups that will develop applications based on FI-WARE that can be deployed in FI-Lab.
