Open market consultation event - Virtual Construction for Roads (V-Con) pre-commercial procurement project

The V-Con consortium invites all interested software vendors to join the V-Con market consultation in Stockholm. The consultation will be held during the biannual buildingSMART conference.

The Virtual Construction for Roads (V-Con) is a European project co-funded by the 7th framework programme of the European Commission concerning standardisation and implementation of Building Information Modelling (BIM) technology in the sector of road construction and road management.

Companies interested in attending the [V-CON market consultation event](#) [1] should register before **12th of March, 2014**. For details on the program and links to registration check the document attached.

More details on the project V-CON can be found [here](#) [2]
