# Workshop - Participative Engagement and Leadership (PEL)

27/03/2014

The SciCafe2.0 Consortium organised a workshop on "Citizens' Say Participatory Engagement Tool Stakeholders' Requirements". The SciCafe2.0 Project funded under the Collective Awareness Platforms Objectives of the European Commission's FP7 Research Programme, is currently engaged in a user requirements study focused on the elicitation and prioritisation of the various stakeholders' needs in respect of ICT-enabled tools for promoting and conducting Public Engagement and Participative Leadership (PEL).

This **Citizens' Say Stakeholders' Requirements Meeting Workshop** will provide an excellent opportunity for stakeholders to discuss their expectations from a support ecosystem of Participative Engagement and Leadership Tools and Facilitation Know-How to suit their particular PEL contexts. The SciCafe PEL Models Refinement Effort is designed to encourage the sharing of best practice in the deployment of PEL Tools and Session Preparation and Facilitation Knowhow so as to motivate continuous learning and improvement of our approaches to PEL as may be suited to each particular context and scale of engagement.
