Commission roadmap to meet the long-term financing needs of the European economy

Press releases27/03/2014

The European Commission has adopted a package of measures to stimulate new and different ways of unlocking long-term financing and support Europe's return to sustainable economic growth. Significant long-term investment will be needed under the Europe 2020 strategy and the 2030 climate and energy package, in infrastructure, new technologies and innovation, R&D and human capital. Investment needs for transport, energy and telecom infrastructure networks of EU importance alone are estimated at €1 trillion for the period up to 2020 as identified by the Connecting Europe Facility.
