Ambient Assisted Living Forum - AAL 2014

EventsBucharest, Romania
09/09/2014 to 12/09/2014

The AAL Forum is the annual showcase event for the people involved in the AAL JP's projects and the AAL community. It is the core connection of the joint programme to the AAL Community. This community includes policy makers, ICT developers, manufacturers, health professionals, commissioners, businesses, venture companies, technologists, academics, designers, carers and of course older adults. Its purpose is to exhibit and demonstrate existing or developing ICT solutions (products and services), promote networking within the community, foster the interest of other sectors in the field of AAL, provoke debate and discussion on various topics and highlight new or emerging developments in the area to inform the AAL community. This year the event is entitled "Broader, Bigger, Better - AAL Solutions for Europe" and its goal is twofold: on the one hand the conference will showcase the significant progresses made by the AAL JP projects and solutions in the exhibition area with various demos and presentations.
