

Digital Single Market

Event Berlin, Germany 19 June 2014 to 20 June 2014

RE.WORK Technology Summit

The RE.WORK Technology Summit will explore emerging technologies shaping the future of business and society. Influential technologists, entrepreneurs, academics, industry and government will explore emerging technologies including robotics, the internet of things, nanotechnology and artificial intelligence.

FET will also be present at the event, with a short presentation by Aymard de Touzalin, FET Deputy Head of Unit, about "Fostering future and emerging technologies".

The list of [confirmed speakers](#) [2] include also Barbara Mazzolai, coordinator of [PLANTOID](#) [3] FET project, Jose Luis Pons, coordinator of [BIOMOT](#) [4] FET project, and Luca Gammaitoni, coordinator of [ICT-ENERGY](#) [5] and [LANDAUER](#) [6] FET projects.

Looking forward to seeing you in Berlin at [RE.WORK Technology Summit](#) [7]!

Do not forget to quote "FET20" when registering to get a 20% discount on your pass!
