

## Digital Single Market

Event Rīga, Latvia 4 June 2014

# Final workshop of SEED Project (Speeding Every European Digital)

During the conference, members of the SEED project will show their best-practices on citizens engagement and innovation in public administrations through the use of digital advertising and cloud in public services technologies. Private and public organizations attending the workshop will be able to find out the benefits of implementing innovative projects in their organizations and getting involved in the international deployment of SEED as partners of the project in order to promote entrepreneurship initiatives based on cloud-computing technologies. Moreover, several aspects of the new programme Horizon2020 of the European Commission will be introduced as well as European policies oriented to innovation in public administrations and citizens. The ERDF (European Regional Development Fund) will present its guidelines to strengthen economic and social cohesion in the European Union and its key priorities focus on Innovation, Research and ICT.
