

COSME. Europe's programme for small and medium-sized enterprises.

As an entrepreneur, you can have great ideas and big ambitions, but without money you won't go anywhere. It's no secret – getting hold of funds can be tricky. As small businesses are vital for our economy, the European Union is making it easier to access finance by helping banks guarantee loans and provide capital to growing businesses. This is just one of many services offered by COSME, the EU programme for the Competitiveness of SMEs, to help entrepreneurs create and grow businesses.
