

European
Commission

COSME. Europe's programme for small and medium-sized enterprises.

Capturing new markets is an excellent way to grow your business. Yet this can be a challenge. You need competent and trustworthy partners. But how do you find them? The Enterprise Europe Network can help you locate them through its database of thousands of company profiles or via its matchmaking events. By doing so, the Enterprise Europe Network contributes to COSME, the EU programme for the Competitiveness of SMEs, which encourages entrepreneurs to create and grow their businesses while facilitating their access to finance and to new markets.

*Find out what COSME can do for your business at ec.europa.eu/cosme
