

COSME. Europe's programme for small and medium-sized enterprises.

Do you have an original business idea that you're eager to realise? Do you want to set up your own company but feel that the obstacles are as big as your ambitions? The European Union can help you release your inner entrepreneur, thanks to COSME, the EU programme for the Competitiveness of SMEs. COSME aims to strengthen entrepreneurship education and training, and to support entrepreneurs to create and run successful businesses. COSME actions also highlight the opportunities that digital technologies can offer and opportunities for young, female and senior entrepreneurs.

Find out what COSME can do for your business at ec.europa.eu/cosme
