

## Motor vehicles – Approval authorities in the Member States

[Regulation \(EU\) 2018/858](#) of the European Parliament and of the Council of 30 May 2018 on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles, amending Regulations (EC) No 715/2007 and (EC) No 595/2009 and repealing Directive 2007/46/EC, Article 6:

1. Member States shall establish or appoint their own approval authorities and market surveillance authorities. Member States shall notify the Commission of the establishment and appointment of those authorities.

That notification shall include the name of those authorities, their address, including their electronic address, and their areas of responsibility. The Commission shall publish on its website a list and contact details of the approval authorities and the market surveillance authorities.

Member States shall ensure that their own approval authorities and market surveillance authorities adhere to a strict separation of roles and responsibilities and that they each function independently from each other. Those authorities may be within the same organisation provided that their activities are managed autonomously as part of separate structures.
