

Declaration of the LVD ADCO Group - 14 November 2006

At the 18th meeting of the LVD Administrative Co-operation working group (ADCO) in Brussels on the 14th November 2006 the following was unanimously agreed by the Member States present:

- The Scientific Committee on Consumer Products (SCCP) Opinion on: Biological effects of ultraviolet radiation relevant to health with particular reference to sunbeds for cosmetic purposes¹ represents the basis for good engineering practice in Europe in relation to the safety matters for such products.
- The recommendations shall be applied with effect six months from the publication of this Declaration.
- The maximum erythemal-weighted irradiance should not exceed 11 SED/h (0.3 W/m²).

Published on 22 January 2007

The LVD ADCO is an independent Working Group run and chaired by the Member States. The Group is a forum for co-operation and exchange of information between national market surveillance authorities. The above Declaration has been placed onto the Europa website at the request of the LVD ADCO Chair. The European Commission has agreed to this request in order to ensure that all interested parties are aware of this development
