

WHAT WE DO IN ACECCAT?

ACECCAT connect people, businesses and institutions in order to share and disseminate know-how on the use of cloud computing related technologies. Our goal is to create value and knowledge within and outside our country, uniting entrepreneurs and to **catalyze and engage** all current business structure within the ICT sector. We help companies to:

Improve efficiency

Connecting to people

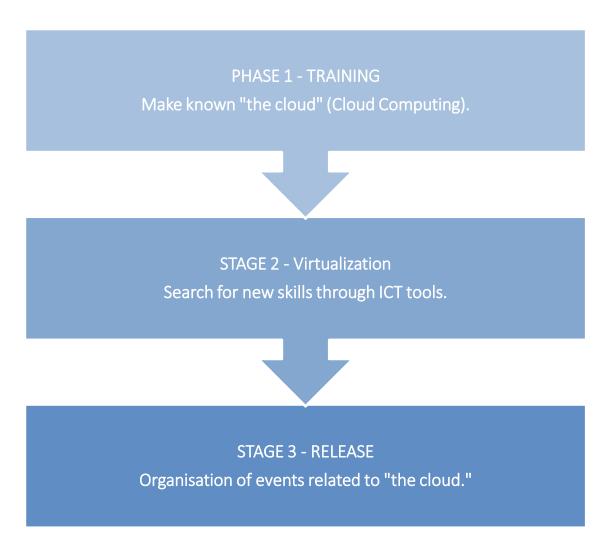

Going Global

We want to create a unique ecosystem with companies of international renown value and to build bridges from here to EU and the rest of the world.
