Mobile World Congress ^[1]

[Mobile World Congress](#) ^[2] is a global event focussing on mobile technologies that sets the industry standard for mobile innovation. The event offers attendees, sponsors, and exhibitors alike the unique opportunity to reach the global mobile community. Showcase your organisation's leadership by participating in the event that brings the mobile world together, in one place.

Opportunities for SME Instrument companies:

- Privileged access to world-leading companies and investors with the opportunity to develop strategic partnerships along with increased visibility and an enhanced reputation;
- Pre-set business meetings with relevant business counterparts based on your company profile;
- Pitching session in front of world class leaders and investors;
- Support before, during and after the event.
