## **15 energising SME Instrument companies selected to present business ideas to Iberdrola** [1]

On 9 May, a curated selection of [SME Instrument](#) [2] companies will present their business solutions and network with Iberdrola top managers in Bilbao, Spain. The companies were hand-picked for their challenging ideas and approaches to renewable energies, smart networks and electric mobility.

The event is an initiative of the SME Instrument [Business Acceleration Services](#) [3] together with the [Iberdrola - PERSEO International Startup program](#) [4], which includes a 70 million euros Venture Capital fund, and is aimed at promoting the creation and development of a global and dynamic ecosystem of emerging companies and entrepreneurs in the energy sector.

The companies will have a unique opportunity to present their business cases to top representatives from the [largest energy group](#) [5] in Spain, one of the five largest power utilities companies in the world, and some of its leading business partners.

Even with access to the best experts and technologies, big companies face growing challenges meeting their innovation and R&D strategies. The SME Instrument Business Acceleration Services are available to all [European Innovation Council](#) [6] (EIC) funded companies and were designed to [make the connection between SMEs, corporate partners and investors](#) [7] easier and more effective. These exclusive services connect an impressive array of startups and scaleups and industry leaders with a

single goal: foster business acceleration and growth.

Before summer, other SME Instrument Corporate Days will bring together SME Instrument innovators with leading corporates like [BMW](#) [8], [Procter & Gamble](#) [9], [ROCHE](#) [10], [ENEL](#) [11] and [VINCI Construction](#) [12].

Get to know the 15 selected SME Instrument innovators. Visit their website or download the [event brochure](#) [13]:

[AEINNOVA](#) [14]

[Ampacimon](#) [15]

[DEXMA](#) [16]

[EMTECH Space](#) [17]

[ETME](#) [18] (FloatMast)

[GreenFlux](#) [19]

[GridPocket](#) [20]

[Laki ehf](#) [21] (Laki Power)

[Lumenaza](#) [22]

[Pôle Position](#) [23]

[ROBOTINA](#) [24]

[ITESTIT](#) [25] (Smartive)

[STME](#) [26] (Fibersail)
