EU LIFE information and networking day

The European Commission is organising an information and networking day on the 2019 LIFE call for project proposals.

The event is open to potential applicants presenting project proposals on green technology, nature protection and climate action. Participants will be invited to a morning information session on the 2019 LIFE call, covering significant changes to the programme compared to previous years.

The afternoon will be dedicated to networking with fellow participants to share experience, match with potential new partners and meet representatives of the LIFE programme from the European Commission.

Registration

Registrations are closed as of 25 April. Practical information and more can be found on the [event website](#). [1]

If you missed the registration or cannot come to Brussels, you can watch the event by [streaming](#) [2] and ask your questions via [sli.do](#) [3] (with the event code: #EULIFE19). Did you know that there are regional and national LIFE Info Days taking place around Europe in the coming months and weeks? Check the [Info Days Overview page](#) [4] or get in touch with [your NCP](#) [5].

Presentations

The [slides from the EU infoday 2019](#) [6] are now available.

The next LIFE Information and Networking Day is planned for April 2020.

Practical Information

When Tuesday, 30 April, 2019 - 09:00
