## The Financing Journey: get ready to scale up with Euronext

The [European Innovation Council](#) [1] (EIC) pilot and [Euronext](#) [2] invite you to apply for a pitching and learning event in Paris, France. Don't miss this opportunity to gain insight on the best way to take your company public and pitch your business to top-tier European investors. [Apply until 17 March 2019](#) [3].

On 15 May 2019, a selected number of companies funded by the EIC pilot will have the opportunity to gain a deeper understanding on how to prepare a company for an Initial Public Offering (IPO) and pitch their business to top European investors at Euronext in Paris.

40 SMEs will be selected for the event and will have the unique chance to join a Serious Game on IPOs and learn more about the challenges and the step-by-step process of going public, guided by a team of advisors from Euronext. From the 40 SMEs selected for the event, 12 will have the chance to pitch their business cases and ideas to a jury of top-tier European investors.

One-to-one meetings, lunch and coffee breaks will provide several networking opportunities to network with Euronext representatives and connect with investors.

By attending this EIC Investor Day, you will have a chance to:

- Participate in a Serious Game to learn about how to go public;

- Engage directly with top European investors and Euronext representatives;
- Pitch your business case in front of a world-renowned jury of European investors;
- Network with fellow SMEs.

Companies backed by the EIC pilot and at an upscaling/growth stage are encouraged to submit their application until 17 March 2019.

This event is brought to you by the EIC pilot [Business Acceleration Services](#) [4]. Looking for other opportunities to connect with investors and corporates? Take a look at our [events page](#) [5].

Should you have any questions, please refer to our helpdesk: [investors@phase3-services.eu](mailto:investors@phase3-services.eu) [6].
