Horizon 2020 INNOSUP

Horizon 2020 INNOSUP calls for proposals and tenders are elements of a broader action to **develop the ecosystem of innovation support to SMEs in Europe**.

Where appropriate, a highly specialised support service may be established at European level to complement existing national and regional services. Generally, the actions are designed to **provide opportunities to Member States and regions to enhance their services** through collaboration, peer-learning and uptake of new approaches.

In addition several actions will focus on the identification, further **development and dissemination of skills and expertise among SMEs**. The [Enterprise Europe Network](#) [1] present in all European regions and co-financed by them and the Member States is expected to play an important role for catalysing such development processes.
