Indicative Allocation\textsuperscript{2}: EUR 143 000 000

In line with DG ECHO's commitment under the Grand Bargain initiative, pilot Programmatic Partnerships have been launched in 2020 and 2021 with a limited number of partners. New Programmatic Partnerships could be signed in 2022 with partners under indirect management. Part of the allocation of this HIP could therefore also be attributed to these new pilot Partnerships.

\textsuperscript{2} The Commission reserves the right not to award all or part of the funds made or to be made available under the HIP to which this Annex relates, or to allocate part of the funding to interventions with a regional or multi-country approach.
3. **Proposal Assessment**

a) Co-financing:

Under the EU Financial Regulation, grants must involve co-financing; as a result, the resources necessary to carry out the action must not be provided entirely by the grant. An action may only be financed in full by the grant where this is essential for it to be carried out. In such a case, justification must be provided in the Single Form (section 10.4).

b) Financial support to third parties (implementing partners)

Pursuant to Art. 204 FR, for the implementation of actions under this HIP, partners may provide financial support to third parties, e.g. implementing partners. This financial support can only exceed EUR 60 000 if the objectives of the action would otherwise be impossible or excessively difficult to achieve. Such situations can occur in cases where only a limited number of non-profit non-governmental organisations have the capacity, skills or expertise to contribute to the implementation of the action or are established in the country of operation or in the region(s) where the action takes place.

Ensuring broad geographical/worldwide coverage while minimising costs and avoiding duplications concerning in particular presence in country, prompted many humanitarian organisations to network, e.g. through families or confederations. In such a context, the situations referred to above would imply that the partner would rely on other members of the network. In such cases, justification must be provided in the Single Form.

c) Alternative arrangements

In case of country or crisis-specific issues or unforeseeable circumstances, which arise during the implementation of the action, the Commission (DG ECHO) may issue specific ad-hoc instructions which partners must follow. Partners may also introduce via the Single Form duly justified requests for alternative arrangements to be agreed by the Commission (DG ECHO) in accordance with Annex 5 to the Grant Agreement.

d) Field office costs
Costs for use of the field office during the action are eligible and may be declared as unit cost according to usual cost accounting practices, if they fulfil the general eligibility conditions for such unit costs and the amount per unit is calculated:

i. using the actual costs for the field office recorded in the beneficiary’s accounts, attributed at the rate of office use and excluding any cost which are ineligible or already included in other budget categories; the actual costs may be adjusted on the basis of budgeted or estimated elements, if they are relevant for calculating the costs, reasonable and correspond to objective and verifiable information

and

ii. according to usual cost accounting practices which are applied in a consistent manner, based on objective criteria, regardless of the source of funding.

e) Actions embedded in multiannual strategies

Funding under this HIP may be used to finance actions implemented in the framework of multiannual strategies, as and when provided for in the HIP.

f) Regional and multi-country actions

Regional/multi-country actions can be supported under this HIP (and where relevant in conjunction with other HIPs3), where they are proven more suitable/effective than country-based interventions to respond to identified needs, taking into account the operating context, the strategy and the priorities set out in the HIP (or respective HIPs), the operational guidelines provided in section 3.2.2. of this Annex, as well as the applicant organisation’s capacities. The proposals should specify the breakdown between the different country allocations.
