June 2012

source: European Commission services

Business Climate Indicator continues to decrease in June

In June 2012, the Business Climate Indicator (BCI) for the euro area decreased by 0.15 points to -0.94. The decline was mainly driven by a more negative assessment of *production expectations, past production, overall order books* and *export order books*. Managers' assessment of their *stocks of finished products* remained broadly unchanged.
