

# **PRICE AND COST COMPETITIVENESS**

**EUROPEAN COMMISSION  
DIRECTORATE-GENERAL FOR ECONOMIC AND FINANCIAL AFFAIRS**

ECFIN/A-3

First and second quarter 2015

**Quarterly data on price and cost competitiveness  
of the European Union and its Member States**

ECFIN/A3/2015/ .

## TABLES AND CHARTS BY COUNTRY

The tables and charts on **Pages 1 to 81** present nominal and real effective exchange rates of the currencies of the European Union Member States, as well as Japan, the United States, Switzerland, Norway, Turkey, Canada, Australia, New Zealand, Mexico, Russia, China, Brazil, Hong Kong and Korea.

Aggregate measures for the European Union as a whole (EU28) and the group of countries participating in the euro area (EA19) are presented as well. Each country (or country group) is compared with the euro area, the EU, (the rest of) 37 industrial countries (the EU countries, the United States, Japan, Mexico, Canada, Australia, New Zealand, Switzerland, Norway and Turkey) and –data permitting– with a larger group of 42 countries (the 37 industrial countries, Russia, China, Brazil, Hong Kong and Korea).

The tables on **Pages 83 to 94** present cross-national tables (vs. IC37) of nominal and real effective exchange rates of the currencies of the EU, the USA and Japan as well as aggregate measures for the EU and the euro area. Each cross-national table of real effective exchange rates is based on a single price or cost deflator. These tables aim to facilitate a comparison of developments in the countries. The final tables show the latest double export weight matrices that were used to calculate effective exchange rates.

Romania - NEER																								
<p>The chart displays the Romania NEER index from 1995 to 2015. The y-axis ranges from 80 to 220. The x-axis shows years from 1995 to 2015. Four lines represent different comparisons: vs EA19 (light grey), vs EU28 (medium grey), vs IC37 (black), and vs gr42 (dashed). The index starts around 210 in 1995, drops sharply to about 140 by 2000, then fluctuates between 80 and 120 until 2008. After 2008, it rises to a peak of about 125 in 2009, then generally declines to around 85 by 2015.</p>

Sweden - NEER

The chart displays the Sweden NEER index from 1995 to 2015. The y-axis ranges from 80 to 120. Four lines represent different comparisons: vs EA19 (light grey), vs EU28 (medium grey), vs IC37 (black), and vs gr42 (dashed). All lines show a general upward trend with significant fluctuations, notably a peak around 2013 followed by a decline.

Korea - NEER

The chart displays the Korea NEER index from 1995 to 2015. It includes four lines representing different currency baskets: EA19 (light grey), EU28 (medium grey), IC37 (dark grey), and gr42 (dotted line). The y-axis ranges from 60 to 140. The x-axis shows years from 95 to 15. The index starts around 120 in 1995, drops sharply to about 70 in 1998, rises to a peak of over 130 in 1999, then fluctuates between 80 and 110 until 2008. After 2008, it shows a general upward trend, reaching approximately 110 by June 2015.
