The 17th International RAMIRAN conference will be held in Wexford, Ireland between the 4th and 6th September 2017. RAMIRAN "Recycling of Agricultural, Municipal and Industrial Residues in Agriculture Network" is a research and expertise network dealing with environmental issues relating to the use of livestock manure and other organic residues in agriculture. This conference will focus on new cutting edge strategies to improve the efficiency of manure and residue management which will be explored across the full spectrum of research, from theory to implementation and adoption by stakeholders.

The overall theme of RAMIRAN 2017 is "Sustainable utilization of manures and residue resources in agriculture", which will be examined under the following sub-themes:

1. Advances in technologies
2. Crop nutrition
3. Gaseous emissions
4. Soil & water quality
5. Adoption and impact
