## EIP-AGRI Brochure on Funding opportunities under Horizon 2020 - 2019 calls

### Author(s):

EIP-AGRI Service Point

### Year of publication:

2018

### Publication abstract (English):

This brochure is based on the version of the Work Programme published on 27 October 2017. An updated version of the Work Programme has been published in summer 2018. This brochure was updated accordingly. Horizon 2020 is the largest source of public funding for research and innovation from the European Commission. It has a budget of around €3.7 billion for the Societal Challenge 2 (SC2) on 'Food security, sustainable agriculture and forestry, marine, maritime and inland water research and the bioeconomy' for 2014-2020. Through the SC2, H2020 aims to create solutions for problems which farmers and foresters currently face. It funds projects in which researchers and stakeholders build solutions together, sharing knowledge and producing results that are ready to be put into practice. The projects are actively supported by the EIP-AGRI network. This brochure should help you find your way through the different calls for 2019.
