

Published on *EIP-AGRI* (<https://ec.europa.eu/eip/agriculture>)

Read the new EIP-AGRI factsheet on reducing antibiotic use in the pig sector. It highlights Focus Group results on how to improve pig health and welfare, and limit the need for antibiotic treatments. The factsheet also includes ideas for Operational Groups and presents research needs from practice.

[You can download the factsheet here](#) [1].

The EIP-AGRI Service Point has also produced a **[brochure](#)** [2] on reducing antibiotic use in the pig sector.
