

A service point for the EIP-AGRI network

Update: 14 February 2020

<https://ec.europa.eu/eip/agriculture/en/about/service-point-eip-agri-network>

The EIP-AGRI Service Point acts as a mediator within the EIP-AGRI network, enhancing communication and cooperation between everyone with a keen interest in innovating agriculture: farmers, researchers, advisers, businesses, environmental groups, consumer interest groups and other NGOs.

The European Commission established the EIP-AGRI Service Point in April 2013 to connect people and facilitate innovation and knowledge-exchange in agriculture.

The Service Point provides the following services:

- A [helpdesk](#) [1], answering your questions.
 - [Focus Groups](#) [2], addressing specific challenges in agriculture and forestry.
 - Organisation of [EIP-AGRI events](#) [3].
 - Feeding the EIP-AGRI network with [publications](#) [4] and coordinating the online [Meeting Point](#) [5].
-

The Service Point spreads the word

In addition to the events and the website, the EIP-AGRI Service Point informs, engages and encourages the EIP-AGRI members through [the EIP-AGRI newsletter](#) [6], the Agrinnovation magazine, social media, and press to help agricultural innovations spread across Europe fast.
