

## **AGRIFORVALOR**

Update: 03 January 2020

<https://ec.europa.eu/eip/agriculture/en/content/agriforvalor>

---

### **Geographical location:**

Baden-Württemberg  
Germany

### **Keywords:**

multiactor project  
General

### **Internal keywords:**

AKIS  
biomass  
bioeconomy  
knowledge exchange

### **Main funding source:**

Horizon 2020 (EU Research & Innovation programme)

### **Project acronym:**

AGRIFORVALOR

### **Project type:**

Research project

### **Starting date:**

2016

### **End date:**

2018

### **Project status:**

ongoing

### **Title (in English):**

Bringing added value to agriculture and forest sectors by closing the research and innovation divide

### **Language:**

English

### **Objective of the project (native language):**

AGRIFORVALOR will close the research and innovation divide by connecting practitioners from agriculture and forestry with research and academia and other multi-actors in multi-actor innovation partnership networks in order to valorize and exploit sidestream biomass resources from agriculture and forestry.

## Objective of the project (in English):

AGRIFORVALOR will close the research and innovation divide by connecting practitioners from agriculture and forestry with research and academia and other multi-actors in multi-actor innovation partnership networks in order to valorize and exploit sidestream biomass resources from agriculture and forestry.

## Description of activities (native language):

AGRIFORVALOR will set up Biomass Innovation Design Hubs, piloted in south of Spain (Andalucia), in Hungary and Ireland. In each of these hubs, existing research results and good practices on valorization of biomass sidestreams from agro and forest will be shared and matched with the specific needs and potentials, new grass-roots ideas collected and developed and dedicated innovation support applied to further deploy selected topics which are dealt with by multi-actor innovation partnership groups.

## Short summary for practitioners

### Practice abstract 1

#### Short summary for practitioners (native language):

AGRIFORVALOR has developed an interactive tool to make research results and practical applications on biomass sidestreams visible and to enable knowledge sharing and networking

## Project coordinator

**Contact person:** Welck Hartmut  
**Address:** Kienestr. 35, 70174 Stuttgart  
**E-mail:** [welck@steinbeis-europa.de](mailto:welck@steinbeis-europa.de) [1]  
**Phone:** 0049 711 123 4031  
**Partner category:** Other

## Project partners

**Organization/Institution name (original language):** Institute of Technology Tralee

**Organization/Institution name (original language):** University of Gent

**Partner category:** Researcher

---

**Organization/Institution name (original language):** Waagenigen University and Research

**Partner category:** Researcher

---

**Organization/Institution name (original language):** Agencia Andaluza del Conocimiento

**Organization/Institution name (original language):** Bay Zoltan Nonprofit Ltd. for Applied Research

**Partner category:** Researcher

---

**Organization/Institution name (original language):** GrowAbriç

**Organization/Institution name (original language):** Agrifood cooperatives of Andalusia

**Organization/Institution name (original language):** Association of Enterprises of Forest and Landscape in Andalusia

**Organization/Institution name (original language):** Gabinete de Iniciativas Europeas

**Organization/Institution name (original language):** Agriculture and food development authority

---

**Organization/Institution name (original language):** Irish Farmers Association

---

**Organization/Institution name (original language):** Irish Business and Enterprise Confederation

---

**Organization/Institution name (original language):** National Agricultural Research and Innovation Centre

**Partner category:** Researcher

---

**Organization/Institution name (original language):** LAVINA Foundation for agricultural innovation

---

**Organization/Institution name (original language):** PILZE - Nagy Kft.
