

EIP-Agri Conference „EIP-Agri & Horizon 2020 - how to bridge?“

Update: 08 August 2017

<https://ec.europa.eu/eip/agriculture/en/event/eip-agri-conference-%E2%80%9Eeip-agri-horizon-2020-%E2%80%93-how>

Dates:

Tuesday, 26 September, 2017 - 08:30 to Wednesday, 27 September, 2017 - 16:45

Type of event:

Conference

Location:

Germany

How can we design the cooperation between EIP-Agri and Horizon 2020? Both EU-funded programmes target more innovation in agriculture. The Operational Groups in EIP-Agri started working. Now, we have to connect their findings with the research results of the EU framework programme Hozizon 2020.

How can both programmes profit from each other? How can they exchange information, national and transnational? With which issues the Operational Groups deal with; which issues the european research projects deal with?

There will be a field trip to various Operational Groups in Schleswig-Holstein. Furthermore, there will be some workshops: specific themes like animal welfare, big data, digitalisation and supply chains will be treated.

The event addresses actors of EIP-Agri from Germany and other member states. Participants from all member states are welcome to network well on a transnational level.

There will be a translation service from German to English.

For more information visit the [website](#) [1] of the event (in German and in English). See also the programme in attachment below (in German and in English).

Venue Address:

Kiel, Germany
