**Type of event:**
Other

**Other:**
Exhibition

**Location:**
Italy

Fieragricola 2018 is the 113th International Agrigicultural Technologies Show. Fieragricola has been a landmark in international agricultural panorama for over a century and is the only event in Italy ensuring complete coverage of agricultural topics.

The wide-ranging exhibits, debates, technical and scientific meetings, performances and dynamic tests ensure that Fieragricola achieves impressive media impact and seeks to anticipate the needs of the market by creating relationships between exhibitors, visitors and sector associations and involving operators thanks to its dynamism and interactivity.

Always paying close attention to policies for shared growth and sustainability, Fieragricola has also accompanied the evolution of the Common Agricultural Policy since 1962, helping to stimulate debate between agricultural systems and the world of national and European institutions through dialogue focusing on planning the main directives to be adopted for sustainable growth while also keeping abreast of the needs of producers.

It is a crossway event focusing on agriculture through a vertical and complete trade offering:

- technologies and products for animal farming, livestock and genetics
- animal shows and auctions
- technologies and products for the renewable energy sector in agriculture
- agricultural machinery, equipment and technologies
- specialised machinery and equipment for vineyards and orchards
- demo areas (open field and vineyards)
- seeds and agricultural chemicals, plants and equipment for protected crops
- products and equipment for green management and forestry activity
- services for agriculture and livestock farming

On the 2nd of February (10:00-13:00) Veneto Agriculture [1] is organising a session "The return of agroforestry systems" [2] where Beatrize Guimarey Fernandez from EIP-AGRI Service Point
will present the results of the final report of the EIP-AGRI focus group on agroforestry.

For more information and ticket prices visit the website of the event.

### Venue Address:
Fairgrounds in Viale del Lavoro 8, Verona, Italy
