Geographical scope:

European Union

Keywords:

value chain

agri-food chain

The OECD has created a portal on food systems. The portal features resources, data and latest news on food systems across topics ranging from environment and agriculture to trade and transport. [Link here](#) [1].

The FAO has published an Innovators' Handbook. It includes experiences from around the World that are changing the organisational structures of local food systems to make them more sustainable. [Download it here](#) [2].
