

Report from EIP-AGRI workshop 'New Value Chains from Multifunctional Forests'

Update: 13 March 2017

<https://ec.europa.eu/eip/agriculture/en/news/report-eip-agri-workshop-%E2%80%98new-value-chains-multifunctional-forests%E2%80%99>

Geographical scope:

European Union

Keywords:

agroforestry

Forestry

value chain

Supply chain, marketing and consumption

General

innovation

This workshop took place in Vienna in November 2016. Participants from the European forestry sector pooled their ideas on innovative value chains from multifunctional forests. Examples range from 3D printing using cork, to trekking trails and mushrooms with health benefits.
