

Introduction to Break-out Groups

Day 2 (*Wednesday, 19 November*)

funded by

How to organise EIP networking at national / regional level

- including effective links to
ISSs and advisory services
with a focus on innovation?

Break-out Groups

SEMINAR LAUNCHING OPERATIONAL GROUPS
18-19 NOVEMBER 2014 - BRUSSELS, BELGIUM

Day 2 – Wednesday, 19 November

How to organise EIP networking at national / regional level – including effective links to ISSs and advisory services with a focus on innovation?

Whilst remembering that:

- "fostering innovation" is a **new objective** for NRNs in 2014-2020 with a **specific obligation** to a) provide "networking for advisers and innovation support services", and; b) organise partner searches for co-operating groups (Article 54(3), EC Reg. 1305/2013);
- In some Member States there are existing platforms / networks that can be used to support EIP implementation.

Break-out Group 6: Ensuring the effective dissemination of results
Facilitator: *Sergiu Didicescu*

- What specific obligations for dissemination of results should be included in the call? How to use dissemination potential in selection criteria?
- How to encourage Operational Groups to structure themselves to promote dissemination of their results (e.g. inclusion of an advisory partner)?
- How to use the common format for reporting? ("practice abstract" in the Annex of the EIP guidelines)
- What exactly is the "result" of a project? (application potential / include data / need for validation / peer review)?
- Lessons learnt from projects not delivering as expected: how to deal with it?
- Which dissemination channels are most useful?

Break-out Groups 7 and 8: How to organise EIP networking at national / regional level?
Facilitators: *Pacôme Eloua Eyenga and Margarida Ambar*

- What are the various functions that networks can / need to perform in EIP implementation?
- What existing platforms / networks can be used? What functions can they deliver? Examples please!
- What practical activities can be included in NRN Action Plans for the networking of advisers and innovation support services? Examples please!
- Under what circumstances would it be useful to establish additional specific networks (e.g. under Article 35) to support EIP implementation? Examples please!
- How to reach and connect with independent advisers, innovation brokers and support services? What's the added value to involve them in the EIP measures?
- How to network local / regional / national levels?

5 x Proposed Break-out Groups

Break-out Groups (10:45 - 12:15)

6. Ensuring the effective dissemination of results
7. How to organise EIP networking at national / regional level? (I)
8. How to organise EIP networking at national / regional level? (II)

9. Innovation brokering and support: what, who, how, when, where...?
- 10. Free discussion – pick-up and carry forward elements from Day 1*

Where?

6.	Ensuring the effective dissemination of results	201b
7.	How to organise EIP networking at national / regional level? (I)	400
8.	How to organise EIP networking at national / regional level? (II)	400
9.	Innovation brokering and support: what, who, how, when, where...?	202 206
10.	<i>Free discussion – pick-up and carry forward elements from Day 1</i>	203

What break-out session would you like to attend today?

Vote is open

Choice	Break-out session	Votes
1	Group 6: Ensuring the effective dissemination of results.	18
2	Groups 7 and 8: How to organise EIP networking at national / regional level?	27
3	Group 9: Innovation brokering and support: what, who, how, when, where...?	44
4	Group 10: Free discussion – Pick-up and carry forward elements from Day 1.	8
