Network-structure to support EIP Agri in Germany

State of play: Operational Groups in Germany

Nationwide:

69 approved OGs

49 in application procedure

Further proposals of 80 potential OGs

Red = number of approved OGs (Black)= number of OGs in application procedure

Challenge for Innovation Facilitator

→ Support with planning, implementation and processing

Challenge for Innovation Facilitator

- Different intensities of innovation brokering in the German Bundesländer
 - > no Innovation Facilitator, officials, freelancer
- Capabilities referring to working hours
 - > 0,5 to 3 workers
- Willingness of OGs to be supported

Support tools for networking – setting up the project

- Information event for upcoming OGs
- Annual events for brainstorming
- Website as an information portal
- Mailing lists with potential actors
- Workshops to inform potential actors
- One-on-one conversation with potential OGs
- Project evaluation and valuable tips for improvement

Project Title

Better baking with less protein – a way to more organically produced quality wheat from Lower Saxony

Project description

The availability and usability of organic grown winter wheat as bread-grain in Lower Saxony should be improved. The problem in organic farming is, that the nitrogen supply is limited and so the protein-content is as well. For this reason the grown wheat often can't be used for baking, even if the protein has good quality, what can't be determined with conventional testing methods. This should be solved by optimizing
