

Galician Digital Innovation Hub for Agrifood industry

Polo de Innovación Dixital para o sector agroalimentario galego

Why a Galician Innovation Hub?

Fragmentation (based on cooperatives)

Leading R&D centers in agri sector and ICT

Lack of alignment agri-ICT

Better integration agri-ICT

Increase sustainability & competitiveness of agri-food sector

Complement with training, experimentation, etc.

Alignment to:

- ▶ Regional programmes & policies
- ▶ RIS3 & Smart Bioeconomy Strategy
- ▶ EU initiatives

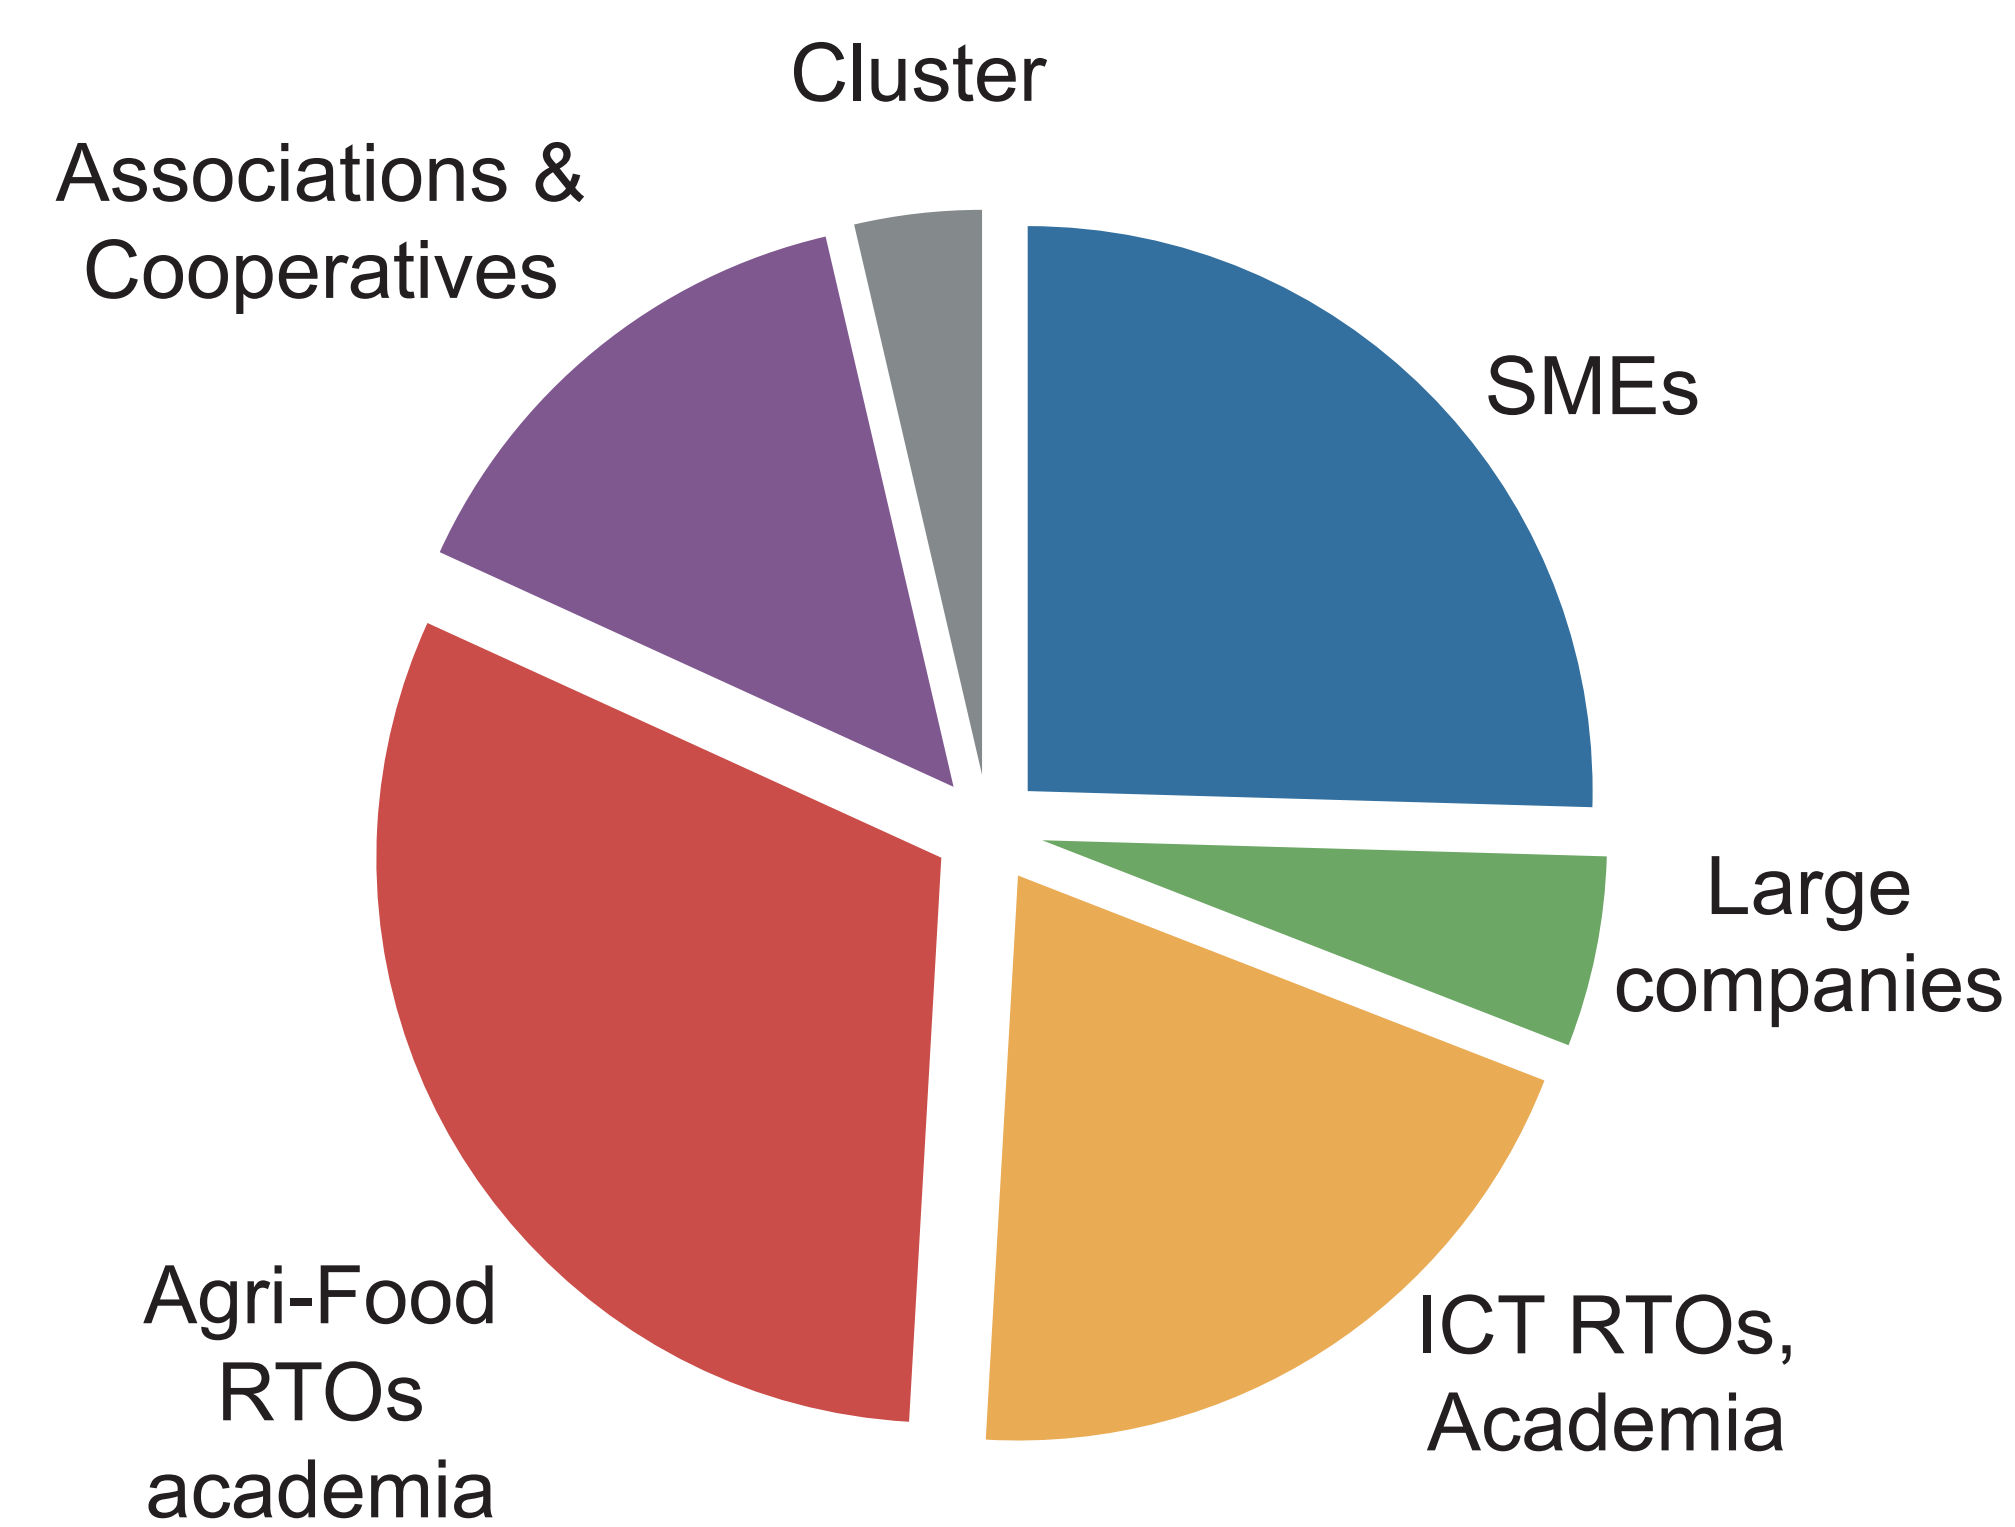

The process

Private agri-food sector + agri-food RTOs

Private ICT sector + ICT RTOs

Engagement with regional actors

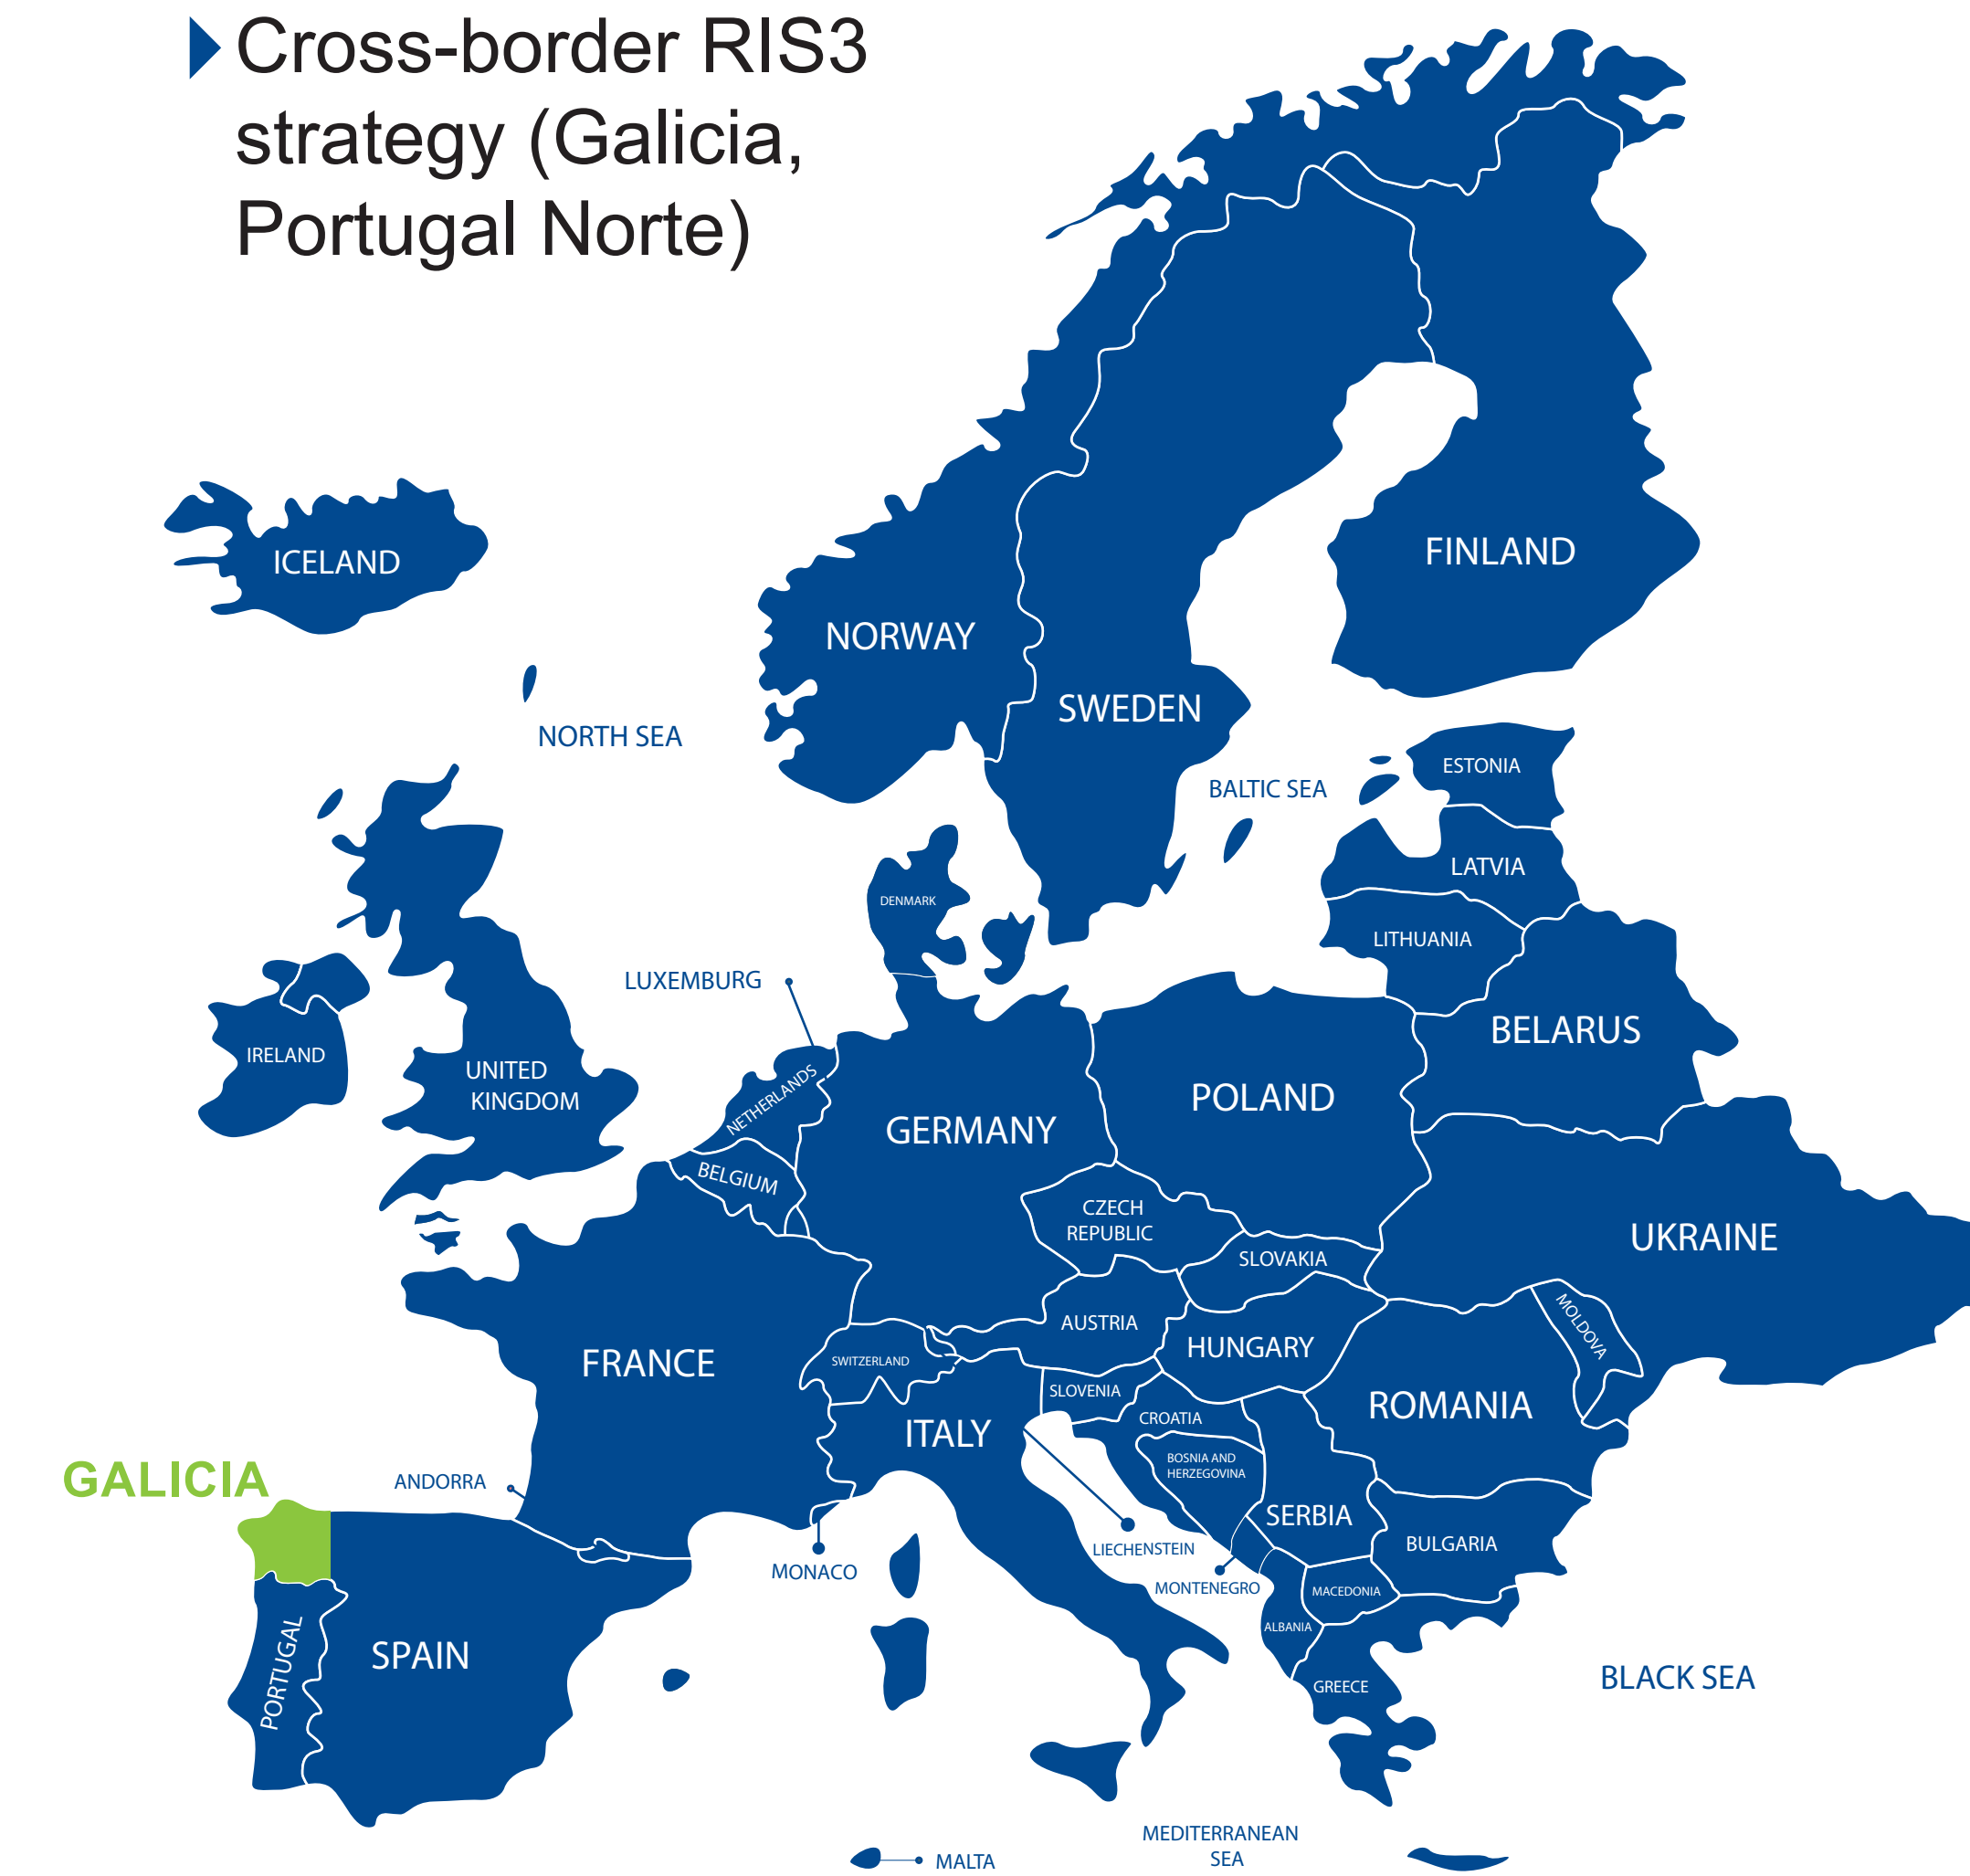

Workshop with DIH actors (Jan'17), defining the Galician agrifood digitisation strategy needs

Mobilisation of resources

Exploit synergies with:

- ▶ Galician Bioeconomy Strategy
- ▶ Galician RIS3 strategy
- ▶ Cross-border RIS3 strategy (Galicia, Portugal Norte)

Several sources envisaged to complement private efforts: own regional funds, ERDF, EARDF, H2020

Links with other regions

Wide collaboration network with Member States and regions built through participation in EU programmes

Active participation in S3 agri-food platform

Participation in **Interreg** programme for strengthening links with other EU regions
