Inspirational ideas

Improving welfare for cows... and farmers
Lone Andersen is an organic dairy farmer from the west of Denmark. Along with her husband, she has been working with robotic technology and smartphone apps since 2009 and she says "it has not only improved welfare for the cows, but also for us as farmers!" [Find out how.](#)

Birch sap tapping in Finland
Birch sap tapping is an ancient tradition in Finland. The liquid extracted is believed to have many health benefits and there is a growing market for this high-end product. New techniques for tapping have been developed and this innovative idea for new potential forest value chains can complement timber production. [Find out more.](#)

Share

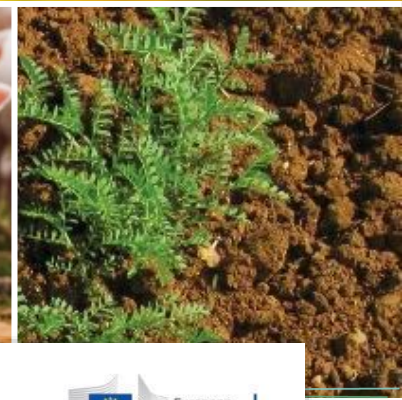

Why share?

How will sharing benefit you?

Benefits for farmers

- How can farmers benefit?
 - Find inspiring ideas
 - Join network activities
 - Share your questions
 - Find partners
 - Research is focused, practical and relevant
- How can cross-border initiatives benefit?
 - Find people working on the same topic – potential partners
 - Identified as a Research need?
 - Find Operational Groups

Benefits for farm advisers

- How can Advisers benefit?
 - Innovative ideas
 - Inspiring examples
 - Access to information on projects
 - A wide selection of tools
 - Share research needs
 - Ideas for Operational groups
- How can advisers working in cross-border initiatives benefit?
 - Find people working on the same topic – potential partners
 - Find Operational Groups
 - Find relevant results

More than the sum of its parts: PLATFORM

An article by Dr. Christine Burnhof

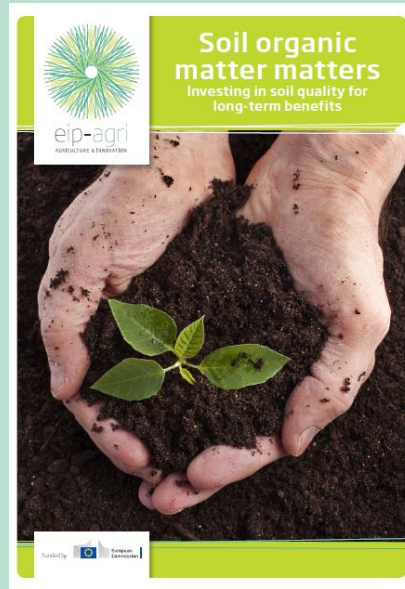

The year 2020 is Europe's Year of Innovation and Creativity. It is a chance to reflect on the past and to look forward to the future. The PLATFORM project has the potential to do this in a way that is both innovative and creative. It is a chance to reflect on the past and to look forward to the future. The PLATFORM project has the potential to do this in a way that is both innovative and creative.

The participants in the PLATFORM project are EIP-AGRI, European Research Area Networks, and Joint Programming Initiatives, or JPIs, in both EIP-AGRI and JPIs. EIP-AGRI is the main coordinator, and some of the other networks are also involved. The PLATFORM project is a joint effort between these networks, and it is a chance to reflect on the past and to look forward to the future. The PLATFORM project has the potential to do this in a way that is both innovative and creative.

EIP-AGRI is their own approach, to ensure that the research results would be useful to use. They also know that the EIP-AGRI network would be very useful in promoting research results and in identifying research needs from practice for their future work.

The PLATFORM for Knowledge Based Bio-Economy (EIP-AGRI) is a platform for knowledge based bio-economy. It is a platform for knowledge based bio-economy. It is a platform for knowledge based bio-economy. It is a platform for knowledge based bio-economy.

The EIP-AGRI PPP project PLATFORM brings together the EIP-AGRI and JPIs in the area of the knowledge based bio-economy. The aim of PLATFORM is to enhance exchange and cooperation between EIP-AGRI actors and to strengthen the impact of EIP-AGRI in the European bio-economy. The work of PLATFORM includes mutual learning and networking, outreach and information, and establishing a forum for exchanging strategic discussion, an annual workshop and other project meetings are also facilitating events towards these aims and include business and discussion sessions towards a common vision and roadmap.

Soil organic matter matters
Investing in soil quality for long-term benefits

eip-agri
EUROPEAN INNOVATION PARTNERSHIP

Looking for inspiration?

Research across Europe has experimentally shown that soil carbon levels are a key indicator of soil health and productivity. However, it is not always clear how to increase soil carbon levels. This article explores the challenges of increasing soil carbon levels and offers some practical advice on how to do this.

My EIP-AGRI: to help you find Operational Group information and more

The screenshot shows the website's header with the EIP-AGRI logo (a green sunburst) and the text "eip-agri AGRICULTURE & INNOVATION". Navigation links include "Legal notice", "Cookies", "Contact on Europa", and "My Account". A banner image shows hands holding soil with a small green plant, with the text "SHARING KNOWLEDGE - CONNECTING PEOPLE - TACKLING CHALLENGES". Below the banner is a menu with "HOME", "ABOUT", "MY EIP-AGRI", "SHARE", "MEETING POINT", "EVENTS", "NEWS", "PUBLICATIONS", and "FOCUS GROUPS". The breadcrumb trail reads "European Commission > EIP-AGRI > My EIP-AGRI". A sidebar on the left lists "My EIP-AGRI", "Operational Groups", "Thematic Networks", and "Multi-Actor Projects". The main content area features a large image of light bulbs, with one glowing, and the heading "My EIP-AGRI". Below this is a section titled "Operational Groups" with a descriptive paragraph. At the bottom, a "Welcome to My EIP-AGRI" section states: "This is an on-line resource developed to support your information/guidance needs. Simply select the type of project you are involved".
