European Rural Networks' Assembly

Subgroup on Innovation for agricultural productivity and sustainability

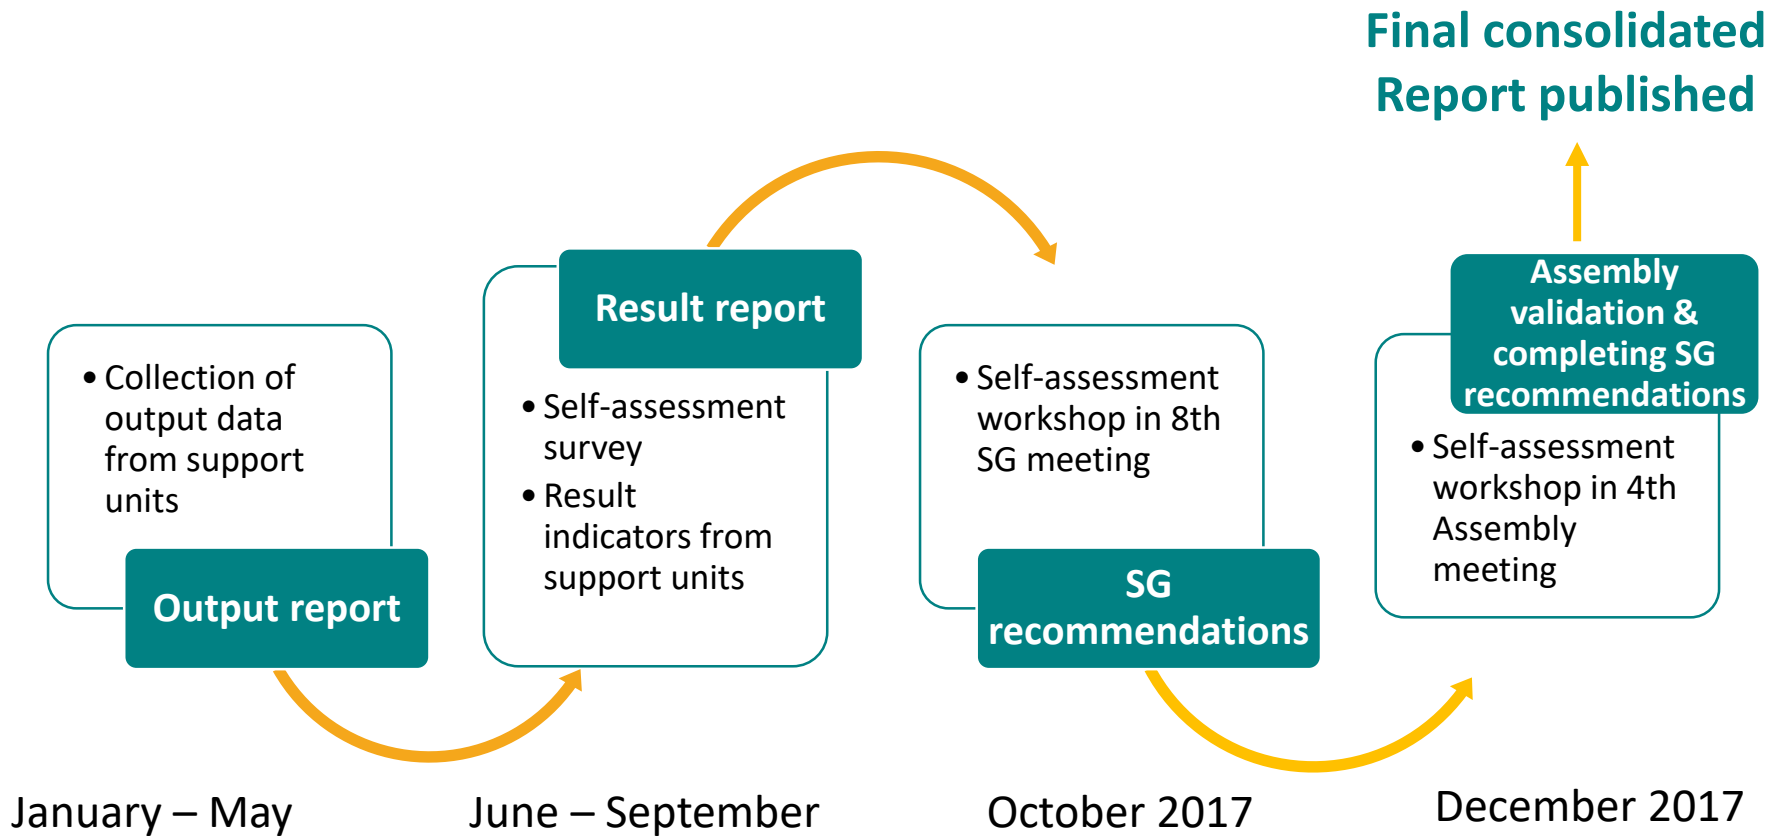

Rural Networks self-assessment 2019

14th Meeting
Brussels – 14 June 2019

EU RN self-assessment 2019 framework

- The Assembly agreed last December to repeat the self-assessment exercise in 2019 but with a lighter approach
- The RN Strategic Framework as agreed by the Assembly remains the same (objectives and indicators)
- How to streamline the process?

RN self-assessment process 2017

Changes proposed for 2019 RN self-assessment process

1. The output and result indicators will be collected in parallel with the survey
2. Some indicators could be discarded
3. The survey questionnaire contains less questions than in previous exercise
4. The first findings on output AND result indicators & survey replies could be presented together at SG in October (TBC)

Changes proposed for 2019 survey questionnaire

- ✓ The questions have been reduced from 22 to 13:
 - ✓ Some have been deleted (too complicated) or merged (very similar to each other)
 - ✓ Better targeted to relevant stakeholders
 - ✓ The first question has been expanded with qualifying elements
 - ✓ Free text box at the end of the survey added for any other comments

2019 Self-assessment indicative time-line proposed

By mid-June 2019	launch of the survey opened until mid-July
12th Steering Group 21/10/2019	presentation of first findings/draft report on the output and results of the EU RN activities
6th Assembly 16/12/2019	presentation of the key findings and the SG recommendations to the Assembly

Thank you!
