

An EU FP7 Project

# CanTogether

Grant agreement N°: 289328

## 1st International Conference

### Challenges and Innovations in Mixed Farming Systems

This Conference will look at the sustainability of Mixed Farming Systems (MFS) from an environmental, economic and social perspective. This Conference will present the findings of CANtogether; Crops and Animals Together, an FP7 project, that assessed the relevance of farming systems combining crops and animals to increase sustainability of farms and regions across Europe.

#### Topics include:

Identifying the Challenges to MFS

Crop-livestock integration at the district scale

Farm and district Level Life Cycle Assessment of MFS

Impact of MFS on regional trends in soil organic matter and nutrient losses

Socio-economic aspects and conditions for the development of MFS

9.30am, Thursday November 26th 2015

Crowne Plaza Dublin Airport, Dublin, Ireland

Cost: €40 (includes registration and lunch)
