Links to available Operational Groups databases

There are many Operational Groups (OGs) now up and running. Member States and regions have set up websites where you can find information on each of the OGs which have been selected for funding.

The collage shows three operational group databases. The first is for Ireland, featuring a map of Ireland with location pins and the text 'EIP-AGRI OPERATIONAL GROUPS - IRELAND'. The second is a Spanish website titled 'Inovación para la Agricultura' with a photo of hands holding seedlings. The third is a French website titled 'LES GROUPES OPÉRATIONNELS DU PEI' with a landscape photo and a search bar.

The collage shows four more operational group databases. The first is for Wales, titled 'Approved EIP Wales Projects', with a photo of potatoes. The second is for Sweden, titled 'Godkända Innovationsprojekt', with a photo of a red 'Innovation' sign. The third is a Spanish website titled 'Conecta con el Desarrollo Rural' with a table of projects. The fourth is a German website titled 'Operationale Gruppen und Projekte - Datenbank' with a map of Germany.

How to network OGs ?

ASSESSMENT OF OPERATIONAL GROUPS

- To gain insight into the activities and results of the OG projects, and how to disseminate those results as best as possible.
- To learn about some elements that may help future OG projects to get better started or facilitate the implementation, and add EU value by improving interaction across the EU through sharing knowledge and connecting actors.
- Operational Groups that had their project selected to fill in this survey.
 - Project may either be running or finished.
