#### **EIP-AGRI Workshop** 'Building new biomass supply chains for the bio-based economy'

May 27 – 28, 2015 – Alghero, Italy

#### EIP-AGRI Workshop 'Building new biomass supply chains for the bio-based economy' Thursday 28 May 2015, Alghero - Italy

09:00 – 09:10 Opening and introducing Day 2

09:10-09:40 Working further on outcomes of interactive session 1

#### 09:40 – 10:40 Presenting support tools

- EIP-AGRI (Rural development and H2020) Ms Virginie Rimbert
- National Policy Strategy on bioeconomy in Germany and its implementation Mr Hans-Jürgen Froese
- RMT Biomasse et Territoires: French national network for technical support for building biomass supply chains Ms Laurie Ducatillon

10:40 – 10:45 Introducing interactive session 2

- 10:45 11:00 Coffee Break
- 11:00 12:10 Interactive session 2: Addressing solutions and tools
- 12:10 12:45 Reporting back to the plenary and discussions
- 12:45 13:00 Wrapping up and closing Mr Rob Peters – Directorate-General Agriculture and Rural Development

13:00 Lunch

funded by the European Commission

# The stakes and conditions of agricultural biomass mobilization

By RMT Biomasse and chamber of agriculture of Seine-Maritime

TERRES d'avenir

### **RMT Biomasse**

National network in research and development to produce necessary innovations to follow biomass energy expansion

#### Network's birth

Mutualize

- Skills
- Knowledge
- Stakeholders

In 2008, 20 national organizations working in biomass field created the RMT In 2014 :

17 participating partners : (research institutes, university...)

### **The partners**

#### The roles of the partners and developed tools

- Obtain references with researches and tests about: species, yields, biomass uses
- Dissemination of knowledge/ communication

Lignoguide: guide of choice of the species

Information platform and search engine about yield study

Publications: crops sheet, video, papers

Tools: costs calculation method, risk assessment

Conferences and demonstrations

#### The network funding

- 80% : The department of agriculture
- 20% : Self-financed

Total budget for this project: 269 349€

### The followed projects

	Leader Financiers	
WEB SEARCH ENGINE 2010-2012	RéseauRural	Europe Feader
<b>OPTABIOM</b> 2010-2013	AGRESTRANSFERT	FranceAgriMer
LIGNEOUS STRIPS IN PAYS DE CAUX 2011-2013	AGRICULTURES A TENTIO RES O NAME AND COLORS	
STUDY OF ENERGY CROPS IN CATCHMENT AREA 2011-2013	A D E M E	CasDAR
<b>LIGNOGUIDE</b> 2010-2013	RMT BIOMASSE Energie, Environmement & Territaire	ES. Patrice States

2 selection conditions :

- project leader is a partner of RMT
- project topic addresses the network stakes

The support : technical support, communication, bibliographic review, experience feedback...

## INN&BIOMA project

Produce and develop agricultural energy biomass to protect lands against erosion

#### The origins

Arable land destruction

Fences cost

Less forest biomass

More wood-chip boiler

#### The members

Project manager	Chamber of agriculture		
Technical partners	AREAS	CEDEN	l Cities
Referent partners	RMT Biomasse		
Targets	Farmers	E	Boiler suppliers

#### The funding

Call for project launched by Water agency

#### Experimental part : technical references

Biomass production (agricultural techniques, yields, species...)

Efficiency against erosion

Possible valuations on the territory

3 Reference sites for RMT Biomasse Utilization of Lignoguide and technical sheet

#### The current part : supplier partnership

Strips of willow and miscanthus

Boiler supplier

### Supply chain

2 hypothesis which depend on the harvesting machine used:

Biobaler or fagot machine

Silage-cutter

RMT activities: equipment demonstration, cost calculation method, trainings

### **Experience feedback**

#### 3 key points to success

- Reduce the perceived risk by the actors in the use of a little known biomass
- Reduce the cost of harvest and logistics
- Estimate the positive impacts of the biomass uses

#### The difficulties

- It is difficult to mobilize all the actors in every meetings because of lack of founding
- Research projects with a lot of fieldwork aren't accepted

#### The prospects

Perpetuate the contacts initiated to favor the partnership in future research projects

- Energetics specialists
- Support institutions: ADEME, water agency ...
- European partnership

### Thank you for your attention
