European  
Commission

# Presentation of the results of the Focus Group grazing for carbon

**Cláudia M. d. S. Cordovil**  
**University of Lisbon, School of Agriculture**

**13-14 April 2021**  
EIP-AGRI Seminar 'Healthy soils for Europe:  
sustainable management through knowledge and practice'

# Grazing for Carbon

process followed

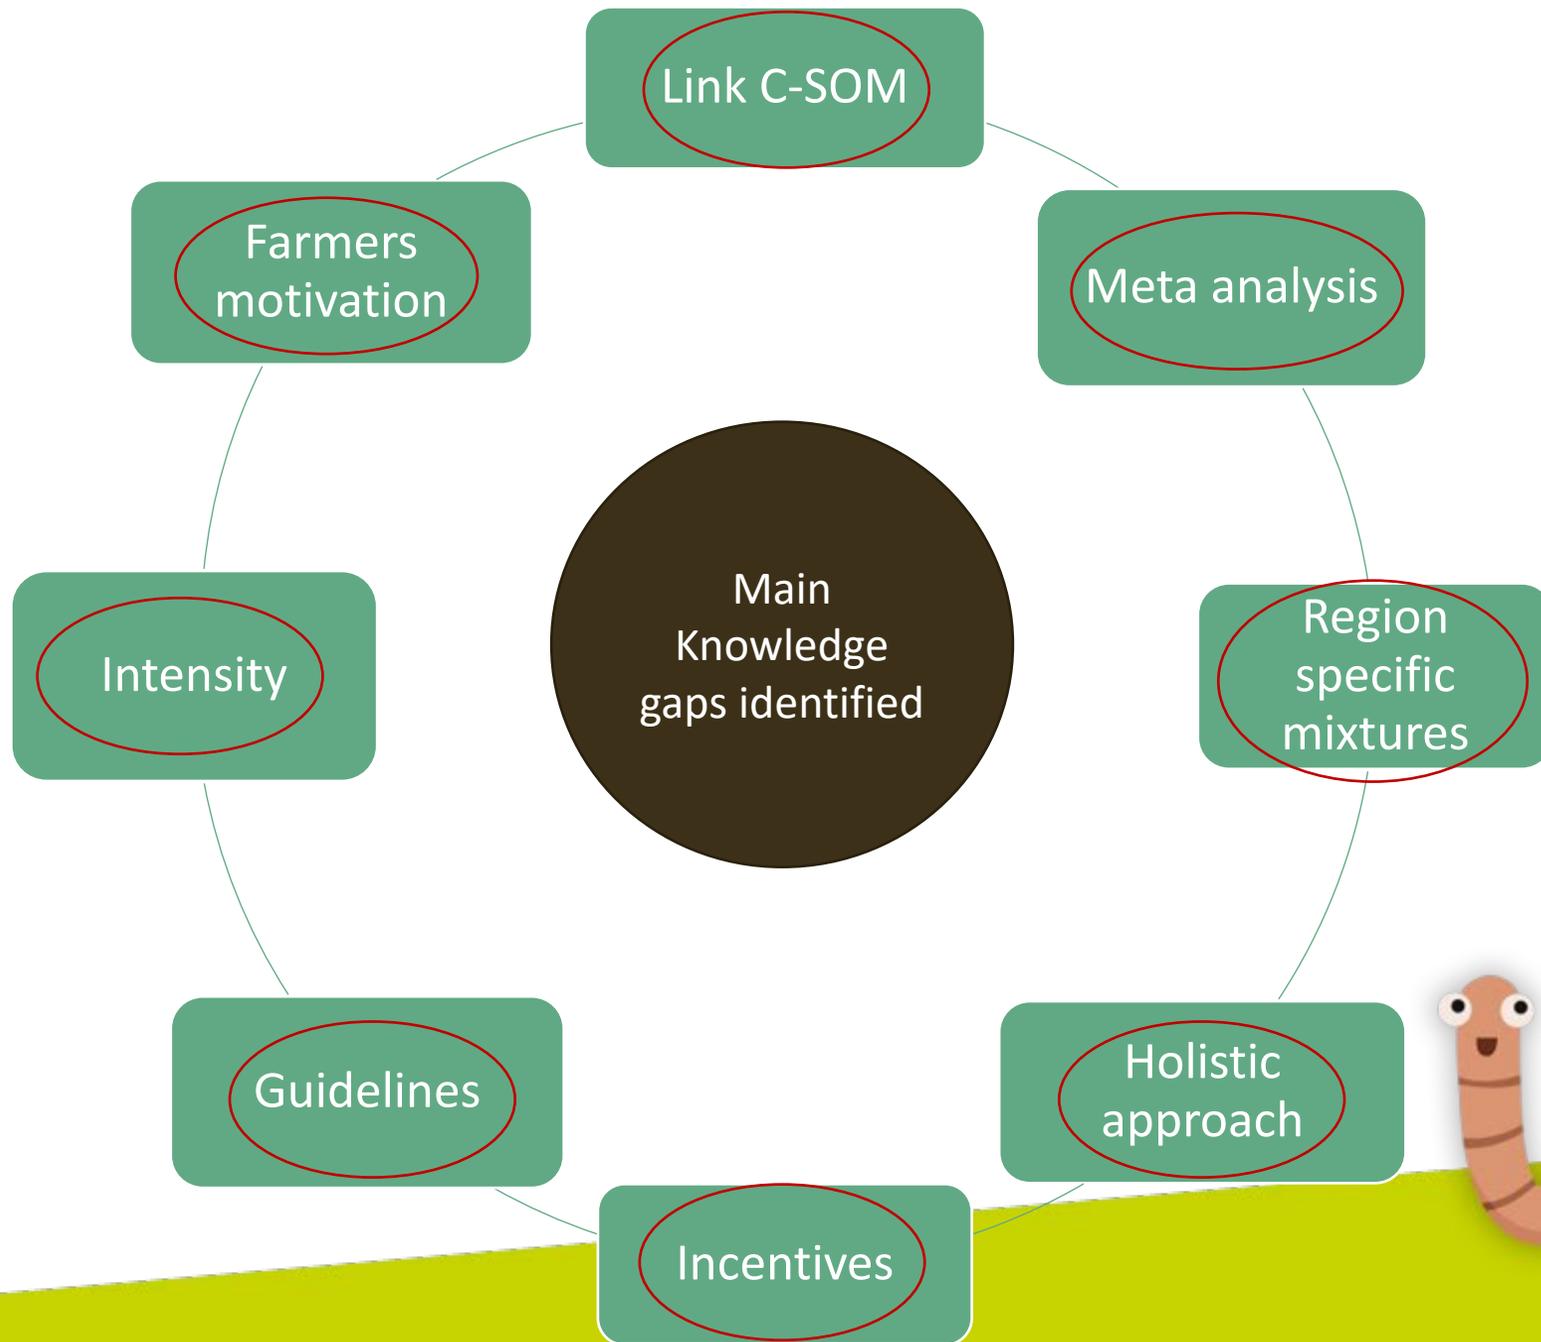

(Spain November 2017)

laboratory discussions

# EIP-AGRI Focus Group Grazing for Carbon

FINAL REPORT  
10 SEPTEMBER 2018

# Key outcomes of the discussions

Optimal grazing management should focus on:

1. Preserving current C stocks
  2. Additional C sequestration (where possible)
  3. Mixtures of species
  4. Monitoring techniques
  5. Incentives
- 

THANK YOU
