

Transnational cooperation - Implementation provisions

Czech Republic

Key strategic questions

- **Programming issues**
- **Choice of themes**
- **Implementing arrangements**
- **Different types of projects**
- **Synchronised calls for proposals**

Programming issues

- **Special priority on TNC**
 - **TNC - eligible expenditure in all other priorities**
- ⇒ **How to guide applicants whether their projects should be implemented under special priority axis or under other priorities?**

Choice of themes

⇒ **Should transnational actions support all thematic priorities of the intervention, or selected ones?**

Implementing arrangements

- **Priority axis directly managed by MA**
 - **Other priorities where TNC is eligible activity managed by IBs**
- ⇒ **How to ensure adequate treatment of projects with TNC element?**

Different types of projects

- **Community of Practise / Thematic network (e.g. Roma network) / Twinning projects**
- **Common product development (Equal like project)**
- **One-off event like e.g. conference, policy forum, peer review**
- **National project with a little bit of TNC**

⇒ **Shall all these types of projects be supported?**

How to ensure TNC

Possible solutions:

- ⇒ **Continuous intake of projects**
- ⇒ **Partner from one MS might cover all costs for all partners (possible only for some types of projects)**
- ⇒ **Projects might start as „national“ and become „transnational“ during their lifetime**
