

EUROPEISKA UNIONEN
Europeiska socialfonden

Why a CoP on transnational exchange and cooperation?

The new ESF strongly focuses on good governance and partnership across Europe.

This CoP supports the ESF management by:

- exchange approaches and deal with challenges faced by programme and project managers
- establish an online platform to facilitate discussion and problemsolving
- provide guidance and building institutional capacity for those involved in the new ESF 2007-2013
- contribute to develop a tool for partner search to promote strategic contact at both project and programme level

EUROPEISKA UNIONEN
Europeiska socialfonden

WHAT ?

The primary purpose of the CoP is to facilitate transnational exchange and cooperation between programme managers of ESF programmes from all Member States.

The community content draws on the experience and active contribution of its members. By sharing little of your knowledge or concern here, you can access knowledge from all of Europe to assist you in your work.

The practical support and the tools available in this CoP can also be useful as well at project level as outside the ESF programmes.

Training, On line forum, documents etc.

EUROPEISKA UNIONEN
Europeiska socialfonden

WHO ?

The purpose of the CoP is to professionalise the transnational implementation of ESF programmes by providing a collaborative environment to exchange experience and good practice, access to a library and expert advice, possible collaboration, partner search etc.

Therefore all transnational contact points should be able to actively participate in the CoP

EUROPEISKA UNIONEN
Europeiska socialfonden

WHEN ?

Since Dec 2006 an operational team (8 MS)

From today hopefully at least 1 repr from every MS (all 27)

From Jan 1 2008 all relevant programme managers involved with TN issues (perhaps several per MS)
