Caritas Oberösterreich

Country where your organisation is based AT - Austria

Explanation

- Do you take the view that the discussion of demographic trends and managing their impact should take place at European level?
- If so, what should be the objectives, and which policy areas are concerned?

Solche Diskussionsforen auf europäischer Ebene sind grundsätzlich positiv, unterstützen Beteiligungsprozesse! Es wäre wichtig und spannend, auch bestehende wirtschaftliche und soziale Systeme zu diskutieren, Fragen zu vertiefen, nach Alternativen zu suchen. Auch die Bereiche z.B.: Wirtschaftspolitik, Bildungspolitik, Steuerpolitik sind zu reflektieren.

1. The challenges of European demography

1.1. The challenge of a low birth rate

Over many years, the Union has been making considerable efforts to achieve equality between men and women and has coordinated national social protection policies.

- How can a better work/life balance help to tackle the problems associated with demographic ageing?
- How can a more balanced distribution of household and family tasks between men and women be encouraged?

- Should the award of certain benefits or advantages (leave, etc.) be linked to an equal distribution of tasks between the sexes? How best to ensure an adequate income for both parents on parental leave?
- How can the availability of child care structures (crèches, nursery schools, etc.) and elderly care structures be improved by the public and private sectors?
- Can a reduced rate of VAT contribute to the development of care services?
- How can parents, in particular young parents, be encouraged to enter the labour market, have the career that they want and the number of children they want?

Überlegungen zur Vereinbarkeit von Familie und Beruf: Dekomodifikation während der Karenzzeit, mit Instrumenten wie "Väterschutz" und Zeitmodelle, parallele Karenz von Müttern und Vätern zur Arbeitsteilung in beiden Bereichen, höhere Ersatzrate- möglichst hohe Angleichung an den Erwerb, längere und verbesserte Sozialversicherungsanerkennung; formeller Einbezug der Karenzzeit als Qualifizierungsphase für Softskills und andere Kompetenzen; Programme, Zertifizierungen wie Kompetenzbilanz als Anreiz! Angebote der Kinderbetreuung in staatlicher Verantwortung, gemeint: der Staat muss gewährleisten, dass Kinderbetreuung gesichert ist. Kinderfreundliche Atmosphäre- vielleicht Preise verleihen. Arbeitsmöglichkeiten im Bereich Kinderbetreuung bis hin zur Pflege Älterer aufwerten- bessere Bezahlung und Anerkennung für Pensionszeiten! 24-Stunden-Pflege von Älteren und chronisch-kranken Menschen in praktikable Modelle, Alternativen überführen.

Anspruchsmodalitäten bezogen auf Anrechnungsstandards gültig in allen EU-Staaten, Harmonisierung der Sozialschutz- Systeme. Berufstätigkeit und Teilzeit als additive Ansprüche kombinieren und anrechenbar machen für die Pension .

1.2. The possible contribution of immigration

The Thessaloniki European Council in June 2003 declared that an EU integration policy for immigrants should help to meet the new demographic and economic challenges currently facing the EU. This is the debate initiated by the Green Paper adopted last January.

- To what extent can immigration mitigate certain negative effects of demographic ageing?
- What policies should be developed for better integrating these migrants, in particular young people?
- How could Community instruments, in particular the legislative framework to combat discrimination, the structural funds and the Employment Strategy, contribute?

Lokales, örtliches Zahlenverhältnis als Bezugspunkt für einen möglichen Integrationsprozess. Studien zu Integrationsprozessen und Zuwanderung. Positives Beispiel "kultursensible Betreuung und Pflege" als modellhaften Ansatz. Die Situationen der "Herkunftsländer" berücksichtigen und Lösungen im "ganzheitlichen", globalen Sinn suchen, nicht nur Probleme verschieben.

2. A new solidarity between the generations

2.1. Better integration of young people

European objectives have been laid down for the prevention of long-term youth unemployment, combating early school leaving and raising the level of initial training. The structural funds help to attain them at grass roots level.

- How can initial training and adult training schemes be improved? What can non-formal education and voluntary activities contribute? How can the structural funds and the instruments for achieving better access to the knowledge society contribute?
- How can the bridges between school and working life and the quality of young people's employment be improved? What role should social dialogue play? What can dialogue with civil society, in particular youth organisations, contribute

Mentoring- Programme für Jugendliche in Betrieben, aber auch ausserhalb unterstützende Bezugspersonen fördern! Kritischer Umgang mit "Konsumhaltung"- eher für gesellschaftliche

Verantwortung sensibilisieren. Intergenerative Projekte in Betrieben fördern- eigenes Förderprogramm! Bildungssystem: Unterrichtende sollten Erfahrungen ausserhalb des Systems Schule sammeln, gesellschaftliche Vielfalt kennenlernen durch Praktika in Betrieben etc, bevor sie wieder ins Schulsystem einsteigen!

- How can Community policies contribute more to combating child poverty and poverty among single-parent families and to reducing the risk of poverty and exclusion among young people?
- What forms of solidarity can be fostered between young people and elderly people?

Intergenerative Projekte in allen Bereichen! EU-Förderprogramm als Impuls! Sozialtherapeutisches Netz für randständige Familien- Überforderung bei Erziehungsfragen auffangen; präventive Massnahmen wie Elternbildung, "Eltern Kind Zentren"- Modell Österreich; Modelle wie "mobile Frühförderung für Menschen mit Behinderungen allgemein für Familien anbieten und finanziell unterstützen! Soziales Denken fördern durch sozio-ökologische Projekte in der Schule! Freiwilliges soziales Jahr für Alle- mit Kompetenzbilanzierung, Anrechnung als Praktikum!

2.2. A global approach to the “working life cycle”

In order to foster the transition to a knowledge society, EU policies promote the modernisation of work organisation, the definition of lifelong learning strategies, the quality of the working environment and “active ageing”, in particular raising the average retirement age. Demographic changes reinforce the importance of these policies, whilst raising new questions:

- How can the organisation of work be modernised, to take into account the specific needs of each age group?
- How can young couples' integration in working life be facilitated and how can we help them to find a balance between flexibility and security to bring up their children, to train and update their skills to meet the demands of the labour market? How can we enable older people to work more?

Flachere Lohnkurven! Bildungszeitkonten! Lebensbildungszeitkonten! übertragbar auf einen anderen Betrieb. Qualifizierungsförderung- Anreize für Betriebe, dies vor allem für Ältere, Frauen, Jugendliche zu ermöglichen! Geförderte "Downward-Moving-Programme"! - Schutzseite dazu: additive Anrechnung von Sozialversicherungsansprüchen. Existenzsicherung/ Grundsicherung!

- How can work organisation best be adapted to a new distribution between the generations, with fewer young people and more older workers?
- How can the various stakeholders in the Union contribute, in particular by way of social dialogue and civil society?

2.3. A new place for “elderly people”

The European coordination of retirement scheme reforms is promoting more flexible bridges between work and retirement.

- Should there be a statutory retirement age, or should flexible, gradual retirement be permitted?
- How can elderly people participate in economic and social life, e.g. through a combination of wages and pensions, new forms of employment (part-time, temporary) or other forms of financial incentive?
- How can activities employing elderly people in the voluntary sector and the social economy be developed?
- What should be the response to pensioner mobility between Member States, in particular with regard to social protection and health care?
- How should we be investing in health promotion and prevention so that the

people of Europe continue to benefit from longer healthy life expectancy?

2.4 Solidarity with the very elderly

The coordination of national social protection policies is due to be extended to long-term care for the elderly in 2006. How can this help to manage demographic change?

- The coordination of national social protection policies is due to be extended to long-term care for the elderly in 2006. How can this help to manage demographic change?
- In particular, should a distinction be drawn between retirement pensions and dependency allowances?
- How do we train the human resources needed and provide them with good quality jobs in a sector which is often characterised by low salaries and low qualifications?
- How do we arrive at a balanced distribution of care for the very old between families, social services and institutions? What can be done to help families? What can be done to support local care networks?
- And what can be done to reduce inequality between men and women when they reach retirement age?
- How can new technologies support older people?

Ausreichende Finanzierung des Gesundheits- und Sozialsystems! Alternative Wohn- und Lebensprojekte! Eigenes Förderprogramm zur Entwicklung neuer Modelle! Anerkennung und Wertschätzung des Fachpersonals, angemessene Finanzierungsmöglichkeiten verschiedener alternativer Wohn- und Betreuungsformen! Austausch von Best Practice hinsichtlich regionaler , lokaler Selbstverantwortung: z.B.: Tauschbörsen

3. Conclusion: what should the European Union's role be?

- Should the European Union be promoting exchanges and regular (e.g. annual) analysis of demographic change and its impact on societies and all the policies concerned?
- Should the Union's financial instruments – particularly the structural funds – take better account of these changes? If so, how?
- How could European coordination of employment and social protection policies better take on board demographic change?
- How can European social dialogue contribute to the better management of demographic change? What role can civil society and civil dialogue with young people play?
- How can demographic change be made an integral part of all the Union's internal and external policies?

Die EU-Ebene hat hier einen bedeutsamen Aktionsradius! Möglichkeit der Harmonisierung der Sozialschutzsysteme! Im Sozialbereich: Offene Methode der Koordinierung als brauchbares Instrument weiter fördern! Wir haben nur ausgewählte Themen bearbeitet- sind an der Diskussion sehr interessiert! Der Dialog mit den BürgerInnen , NGO's und lokalen/regionalen Verantwortlichen sollte weitergeführt werden.
